Boken "Tanker" er skrevet på kun 51 dager, hvor forfatteren målrettet har satt seg ved computeren hver morgen med kun en tanke i hodet, og få tanken nedskrevet, bearbeidet og renskrevet. Han når da også vidt omkring, og det skrives både om Kina, byggeaktivitet i Spania, en Ford Fiesta og om snøen i Norge.

Man forstår derfor godt, at han etter 51 dager følte at det var nok, og stolt erklærte at det var det, drakk et glass rødvin og gikk en lang tur i den storslåtte naturen.
